Voting, throughout Lebanon, shall always take place on one day, which shall always be a Sunday, from 7:00 am to 7:00 pm.

#### **Article 86: Voting of Polling Stations' Staff**

The Ministry shall organize exclusive elections for polling stations' staff in all constituencies on the Thursday that precedes Election Day.

All ballot boxes related to the polling stations' staff shall be dispatched closed, with an escort of security forces, immediately after counting the ballot papers in each box, to the Central Bank of Lebanon or to one of its branches. At the end of the voting process on Sunday, these boxes shall be sent to the competent registration committee to count them and collate their results with those of the other ballot boxes. The regulations set forth in Chapter 11 of the present law shall apply in this process.

#### **Article 87: Voter Checklists**

1. The Ministry's Directorate General of Political Affairs and Refugees shall issue voter checklists, based on the voter rolls, to be used in all polling stations in Lebanon and abroad. In addition to the data taken from the voter rolls, each checklist shall include the voter's ID card number or passport number, if available on the date when the lists were prepared, as well as three empty boxes: one for the voter's signature, one for the polling station staff member appointed to verify the voting, and one for any notes related to the voting process.
2. Each polling station's checklist shall have all its pages bound together, numbered, and bearing the seal of the Ministry.
3. No one shall be allowed to vote unless his/her name is registered on the checklist of the relevant polling station, or unless the competent registration committee issues a decision, at the request of the person wishing to enroll, to have his/her name registered before March 25<sup>th</sup> upon consultation with the Ministry.

#### **Article 88: Agents**

1. Each list may delegate voters from the relevant constituency to access the polling station, on a basis of maximum two permanent agents per polling station. It may also choose, amongst the constituency voters, itinerant agents to enter all the constituency's polling stations, at a basis of one agent for every three polling stations in villages, and one agent for every 5 polling stations in cities.
2. The *Muhafez* or *Qaimaqam* shall issue special authorization to the aforementioned agents according to regulations specified by the Ministry.

#### **Article 89: Maintaining Security**

Security forces shall maintain order at the entrance of and around polling centers. Any electoral or promotional activity, especially loudspeakers, loud music, party flags and car convoys, shall be prohibited in the vicinity of the polling center.

#### **Article 90: Polling Station Equipment**

1. The Ministry shall provide the polling stations with the equipment and stationery necessary for the electoral process. It shall provide each polling station with one ballot box made of transparent solid material and having one opening.
2. The Ministry shall print and supply chief officers of polling stations with the official ballot papers, along with their stamped envelopes, which number shall be equal to that of enrolled voters. The Ministry shall also provide to the chief officers of polling stations extra ballot papers with their non-stamped envelopes, which shall be equivalent to 20% of the number of enrolled voters.
3. Each polling station shall have one or more voting booths.
4. No voting shall be carried out in a polling station not equipped with a polling booth; otherwise, the voting process shall be annulled in the polling station in question.

#### **Article 91: Ballot Papers**

1. Voting shall be carried out using, as indicated in article 91 of this law, ballot papers prepared in advance by the Ministry for every constituency, and distributed to the polling stations staff along with the elections material.
2. The official ballot papers shall include the names of all lists and their members, as well as the specifications indicated in the specimen prepared by the Ministry, namely: the color and logo of the list, an empty checkbox for each list, the full name and confession of each candidate and the cada in which he/she is standing for elections. A passport photo of each candidate shall be displayed next to his/her name, in addition to an empty box where voters may exercise their right to cast their preferential vote on the same list, as per the provisions of Article 97 of the present law.
3. Voters shall exclusively use these ballot papers to vote. They shall not use any other paper to exercise their right to vote.

#### **Article 92: Preparatory Procedures**

1. Before the commencement of the voting process, the polling station chief officer shall open the box and verify with the polling station staff and candidate agents that it is empty before locking it properly according to the Ministry's instructions.

2. During the election process, official copies of the voter roll and of the Minister's decision establishing and designating the polling stations shall be posted at the entrance of every polling station. A copy of the electoral law, a list of the candidate agents as well as posters and illustrative material explaining the electoral process shall be placed on a table inside the polling station so that voters, candidates and agents may refer to them.

3. Before the beginning and until the end of the electoral process, the polling station chief officer shall make sure that all posters, symbols, writings, or slogans of any nature whatsoever, except for the illustrative material provided by the Ministry, are removed from the polling station.

4. Before the commencement of the voting process, the polling station chief officer shall verify that the number of ballot papers and sealed envelopes is exactly equal to the number of the enrolled voters.

In the event of shortage in the ballot papers and stamped envelopes due to force majeure that aims at affecting the validity of the ballot, or for any other reason, the polling station chief officer shall replace the missing ballot papers and envelopes with the additional ballot papers and unsealed envelopes that he/she had received, seal the additional envelopes with the Polling Station seal, and indicate the date and the reason for this replacement in the record. The remaining additional ballot papers and unsealed envelopes that were not used shall be annexed to the record.

### **Article 93: Voting Process**

1. As soon as the voter enters the polling station, the station chief officer shall verify his/her identity based on his/her ID card or Lebanese valid passport. In the event where the ID card or passport data conflict with the data on the voters' checklists, the ID card number or passport number shall be adopted instead.

2. Upon verification by the staff of a given polling station that the voter's name is listed on the voters' checklist of the polling station in question, the polling station chief officer shall give the voter a ballot paper, after signing its back side with the clerk, in addition to a sealed envelope, after signing it. He shall then ask the voter to mandatorily go into the voting booth to freely exercise his/her right to vote under penalty of prohibiting him/her from voting.

3. The voter shall put the ballot paper in the envelope while still inside the booth, after choosing the list and the names of candidates as per Article 97 of the present law.

The voter may not put more than one ballot paper in the envelope. The voter shall then approach the polling station staff and show its chief officer that he/she holds only one stamped envelope; the head of the station shall verify this without touching the envelope, and then authorize the voter to drop himself/herself the envelope, in the ballot box.

4. The polling station chief officer shall make sure that the voter has indeed used the voting booth under penalty of prohibiting him/her from voting. The voter may not display his/her ballot paper upon exiting the voting booth.

5. The voting shall be confirmed by the voter's signature on the voters' checklist and by thumb-inking using indelible ink that lasts for at least 24 hours, and which shall be provided by the Ministry for all polling stations. Any voter with their thumb inked shall be prevented from voting a second time.

6. The polling station chief officer shall, under penalty of liability, prohibit any voter from voting unless he/she abides by the provisions of Paragraph 4 of the present Article.

7. No voter may delegate the exercise of his/her right to vote to anyone else.

### **Article 94: Voting of Persons with Special Needs (Disability Rights Law)**

1. A Voter with special needs and whose disability prevents him/her from writing down their choice, put the ballot paper in the envelope and drop it in the box may, in accordance with the Disability Rights Law, be assisted by another voter that he/she chooses, under the supervision of the polling station staff. Such incident shall be mentioned in the empty box on the voters' checklist reserved for notes.

2. The Ministry shall take into consideration the needs of persons with disabilities during the organization of the electoral process and shall, hence, take all necessary measures allowing those to exercise their right to vote without obstacles.

The Ministry shall set forth a relevant detailed implementation code after consultation with the concerned organizations of disabled persons set forth in the Disability Rights Law no. 220 of 29/5/2000.

### **Article 95: Conclusion of the Voting Process**

The head of the polling station shall declare the ballot closed at 7:00 pm. However, if there are still voters present in the entrance area of the polling center, who have not yet cast their votes, the polling time shall be extended until they cast their vote. Such a procedure shall be mentioned in the record.

## **CHAPTER VIII** **The Electoral System**

### **Article 96: Voting for a List and Preferential Vote**

1. Each voter shall vote for one of the competing lists and shall be entitled to cast two preferential votes for two candidates of the same list he/she had chosen.
2. In case the voter does not cast two preferential votes, the voting shall remain valid and only the list shall count. In case the voter casts only one preferential vote, this vote shall be counted. However, if the voter casts more than two preferential votes within the same list, none of them shall be counted, and only the list shall count.
3. If the voter casts a vote for a list in addition to two preferential votes: one on the same list he/she has chosen and one or more preferential votes on another list, none of the preferential votes shall count and only the list shall count.
4. If the voter does not vote for any list but casts two preferential votes on the same list, the list as well as the preferential votes shall count.

### **Article 97: The Proportional System (The rule of double quota or the largest remainder)**

1. The number of seats won by each lists shall be determined based on the electoral quotient.
2. In order to determine the electoral quotient, the number of voters in a given constituency shall be divided by the number of seats allocated for that constituency.
3. Lists that have not obtained the electoral quotient shall be eliminated from the seat allocation procedure; the electoral quotient shall be re-determined after deducting the votes received by the eliminated lists.
4. The remaining vacant seats shall be allocated to qualified lists that obtained the largest remainder of the votes left after the first division. This procedure shall be repeated until all of the remaining seats are distributed (cf. a practical example).

In the event where one seat remains and the largest remainder is equal between two eligible lists, the seat shall be given to the list that obtained the largest number of seats. In case both lists obtained the same number of seats (the same number of votes), the seat shall be given to the list whose candidate, who came in first, obtained the highest number of preferential votes. In the event where preferential votes for candidates who came in first in both lists are equal, the seat shall be given to the list which candidate, who came in second, obtained the largest number of preferential votes, and so forth.

5. Once the number of seats obtained by every qualified list is determined, the names of candidates of the same list shall be ranked in a descending order, following the preferential votes obtained by each.
6. Announcing the names of winners in each constituency shall be based on the following mechanism:
  - (a) The names of candidates of all qualified lists shall be ranked in one comprehensive list in a descending order based on the number of preferential votes obtained by each.

In the case of an equal number of preferential votes between two candidates, the eldest candidate shall be given precedence; in case both were the same age, the Higher Registration Committee shall resort to selection by lot.

- (b) The seats shall be distributed among winning candidates starting from top of the comprehensive list that contains the names of all list candidates. The first seat shall be given to the candidate who received the highest number of preferential votes. The second seat shall be given to the candidate ranked second on the comprehensive list, irrespective of his/her original list. The same applies for the third seat and until all seats of the constituency are distributed among the candidates of other qualified lists.

7. Seat allocation shall also consider the following conditions:

- The vacancy of the seat, which is subject to the confessional distribution of seats. That is, once a specific confession has exhausted its share of seats in a single constituency, the remaining candidates of that confession shall be de facto eliminated from the seat allocation competition.

- The list must not have exhausted its share of seats. During seat allocation, a candidate belonging to a list that has already exhausted its share of seat shall be skipped, and the seat shall be given to the next candidate.  
8. If two candidates obtain equal numbers of preferential votes, the eldest candidate shall be ranked higher. If both candidates are of the same age, the Higher Registration Committee shall resort to the drawing of lots.

## **Chapter IX** **Counting Votes and Declaring Results**

### **Article 98: Counting Process in Polling Stations**

At the end of the voting process, polling shall be closed; only the station staff members, permanent and/or itinerant list agents, accredited observers and media representatives authorized by the Commission to cover and film the counting process inside the polling stations, shall be allowed to stay inside the polling station. The polling station chief officer shall open the ballot box and count the envelopes. If the ballots outnumber or undernumber the number on the checklist of cast votes, it shall be mentioned in the record. The polling station chief officer shall open the envelopes one by one and read loudly the name of the list elected by the voter, followed by the name or names of the candidate(s) having received preferential votes on each list, under the effective supervision of candidates or their agents and other accredited observers if any.

### **Article 99: Polling Station Equipment**

The Ministry shall provide the polling stations with special cameras and TV Screens allowing the projection of the ballot paper content on the TV screen, and therefore, allowing the station staff, candidate agents, and accredited observers to easily read, during the vote count, the names of lists and candidates on the ballot paper.

### **Article 100: Invalid Ballots**

Any ballot paper containing any mark other than those mentioned in Article 97 shall be deemed invalid. Envelopes that contain ballots other than the common official ballot papers, as well as empty envelopes shall be also deemed invalid. The polling station chief officer shall enclose the invalid ballots with their envelopes signed by the staff with the record and shall mention the reasons thereof.

### **Article 101: Blank Ballots**

Ballots that do not include any vote for a list or any preferential vote shall be considered as blank ballots and shall be counted with the valid ballots.

### **Article 102: Declaring Results of a Polling Station**

1. After counting the official ballot papers, the polling station chief officer shall declare the provisional result, sign it and immediately post it on the polling station entrance; he shall also issue duplicates to any candidate or agent upon their request.
2. The number of votes obtained by every list as well as the number of preferential votes obtained by every candidate shall be specified when the results are declared.

### **Article 103: Polling Station Record**

Upon declaring the provisional results of the polling station, the station chief officer shall draw up a report in two original copies, which shall have all its pages signed by the station staff members. The station chief officer shall enclose in a special envelope: the voters checklists signed by the voters, all ballot papers, the aforementioned report and the voting tally sheet of lists and candidates. After being sealed with wax, the envelope shall be carried by the both the chief officer and the clerk of the station, with an escort of security forces, to be submitted to the registration committee center, where it shall be delivered together with all enclosed documents to the head of the registration committee, or his delegate, who shall later open the envelope in the presence of candidate agents. The polling station's chief officer and clerk shall both be held responsible if, once received by the registration committee, the envelope is found open or not corresponding to the declared provisional results.

#### **Article 104: Counting Process at the Primary Registration Committees**

1. The competent Primary Registration Committee shall receive the records of all polling stations located within its scope of work. Records shall be delivered by the polling stations' chief officers and shall be documented in a report established to this end. The Ministry shall provide the necessary material to the Primary Registration Committee, most importantly, a big transparent container for the ballot papers, a programmed computer as well as a large screen to display the results, and any other equipment necessary for the sound automation of the electoral process.

2. The Primary Registration Committee shall study the polling station record and documents and take the relevant decisions thereon. It shall recount the votes according to the following:

Ballots of each polling station shall be consecutively emptied in the big transparent container after being counted under the supervision of the Primary Registration Committee, candidate agents and observers.

Then, the vote count for every polling station shall begin using a programmed computer that shall process the count automatically.

In case there was any difference between the results contained in the polling station record and those of the programmed computer, the count shall be repeated manually.

After verifying the number of votes obtained by every list and candidate, the Primary Registration Committee shall record the total result in tables and records, and submit them, after signing them by all the committee members, in duplicates to the higher registration committee of the constituency.

The Ministry's Directorate General of Political Affairs and Refugees shall appoint an employee in each primary registration committee to consecutively receive the envelopes of polling stations and documents attached thereto from these Committees as soon as they finish their work with every envelope. The said employee shall sign an acknowledgement of receipt of each envelope and its relevant documents.

#### **Article 105: Declaring the Final Results**

The Higher Registration Committee of each constituency shall receive the results submitted by the Primary Registration Committees of that constituency.

It shall audit the tables and records and only rectify material and counting irregularities, if any, and then rectify the final result accordingly.

It shall then count the votes submitted by the Primary Registration Committees using a computer programmed to this end. The final results of each constituency shall be recorded, in the final table of results, in numbers and letters, writing the word "only" after the total result. The record and final comprehensive table shall be signed by all Committee members.

Subsequently, it shall announce, to candidates or their agents, the final results pertaining to the number of seats obtained by each list as well as the names of winning candidates.

The Higher Registration Committee shall submit to the *Muhafez* or *Qaimaqam* the final records and the comprehensive results table, and shall draw up an acknowledgement of delivery and receipt to be signed by the *Muhafez* or *Qaimaqam*, and one member of the Higher Registration Committee named by the head of the said committee.

The results, along with the final records and the comprehensive table enclosed thereto shall be immediately sent to the Ministry of Interior and Municipalities, who declares the final official results and the names of winning candidates. The Minister shall immediately notify the Speaker of Parliament and the President of the Constitutional Council of the results.

#### **Article 106: Saving Ballot Papers**

After the announcement of the elections' results, ballot papers shall be confidentially saved at the Central Bank of Lebanon, in special separate folders each indicating the name of its corresponding polling station, for a period of three month after which the Ministry of Interior and Municipalities shall destroy them by virtue of a duly prepared record, unless they are subject to any review or challenge before the Constitutional Council.

All Lebanese natives living outside the Lebanese territory shall be entitled to vote in the polling centers established in Lebanese embassies and consulates or in other locations specified by the Ministry, pursuant to the provisions of the present law and in coordination with the Ministry of Foreign Affairs and Emigrants, provided that their names are registered on the personal status registers and that there is no legal impediment to their right to vote pursuant to the provisions of Article 4 of the present law.

#### Article 110: Non-Resident Voters Enrollment

Upon enactment of this law, the Ministry shall invite, via Lebanese embassies and consulates, and in coordination with the Ministry of Foreign Affairs and Emigrants, all the Lebanese emigrants who fulfill the aforementioned conditions, to express their wish to participate in the voting from their country of residence, by registering their names either personally or by virtue of a duly signed and authenticated proxy.

The Ministry, along with the Ministry of Foreign Affairs and Emigrants, shall establish the procedures for the enrollment of non-resident Lebanese citizens in the embassies or consulates of their choice, including all the information needed concerning their identity, register number, confession and regular Lebanese passport number, if available.

The deadline for registration shall not exceed November 20<sup>th</sup> of the year preceding the parliamentary Elections. After this date, the right to out-of-country voting shall be called off. The embassies shall send the new registration data successively to the Directorate General of Personal Status via the Ministry of Foreign Affairs and Emigrants before December 20<sup>th</sup>.

#### Article 111: Separate Voter Rolls

The competent departments at the Directorate General of Personal Status shall verify the registration of those names on the personal status register and shall establish, after the expiry of the enrollment period, a special voter register for each embassy or consulate, including the names of eligible voters, distributed according to constituencies. The number of enrolled voters in one electoral center shall not be less than 200 voters. A

mark shall be put next to their names to prevent them from voting again in their original place of residence. Their place of registration abroad shall also be indicated.

#### **Article 112: Announcing and Auditing Separate Voter Rolls**

1. Before February 1<sup>st</sup> of every year, the Ministry shall send on CDs, via the Ministry of Foreign Affairs and Emigrants, to the Lebanese embassies and consulates, the primary voter rolls with the names of persons who have expressed their wish to vote abroad pursuant to the provisions of Article 111 of the present law.

Every embassy and consulate shall produce copies of these registers and make them available at their premises and publish them on their websites, if any.
3. Any concerned person may lodge a claim relating to the voter rolls before the concerned embassy or consulate and provide the necessary documents. The concerned embassy or consulate shall study the claim and send it to the Ministry through the Ministry of Foreign Affairs and Emigrants before February 20<sup>th</sup> of every year. The revision, rectification, and crossing-off records shall be subject to the rules and procedures set forth in Chapter IV of the present law.

#### **Article 113: Out-of-Country Polling Stations**

The Ministry shall send via the Ministry of Foreign Affairs and Emigrants, to every embassy or consulate, the number of eligible voters reporting to it. Each embassy or consulate shall then designate one polling station for each center. In case enrolled voters in a polling center exceed 400, more than one polling station shall be designated.

As soon as the voter enters the polling station, the station chief officer shall verify his/her identity based on his/her ID card or Lebanese valid passport, and shall also verify that his/her name is listed on the voters checklist. In case the data on the ID card or passport conflict with that on the voters' checklists, the ID card number or passport number shall be adopted instead.

After verification by the station staff that the voter's name is listed on the polling station's checklist, the Chief officer shall give the voter a ballot paper and an officially sealed envelope, after signing it. He/she shall write down the name of the constituency to which the voter belongs along with the cadas covered by that constituency.

Voting of non-resident Lebanese citizens shall be regulated by the general provisions that govern the voting of resident Lebanese citizens and which do not conflict with the provisions of the present law.

#### **Article 116: Counting and Distribution of Ballot Papers**

At the end of the voting process, the polling station staff shall open the ballot box (es) in the presence of the ambassador or consul or their delegate if both were unable to attend. The polling station staff shall count

envelopes and sort them based on the constituency to which they belong in the presence of candidate agents, observers and accredited media, if any.
